

Spring Solo Changes and Running Order

Dear Clubs,

The Spring Solo entry has far exceeded what we envisaged, we made changes to the event in 2020 to help us control the number of skaters but unfortunately the changes have not helped, and the Spring Solo will have the biggest entry we have ever had. Whilst this is amazing for the sport in the UK it shows we have to work harder to be able to run the events we want to.

We had made the very tough decision to make the below changes to the Spring Solo Event.

1. All Non-Medallist and Elementary Solo Dance events will no longer be run using the Knockout system, instead the events will be split by age and we will run events concurrently. There will be 3 skaters competing at the same time.
2. All team events have been cancelled and we will issue refunds to all clubs for these events. There was just not enough time to run the events. We have analysed the entries and removing the teams had the least impact to skaters.

We did not make these changes lightly and we have been working hard since the closing date to try and make it work but unfortunately it was not safe to run all the events.

If you have any questions, please don't hesitate to contact me.

Kind Regards

Nick Loader
HEAD of DANCE

Running Order
